Confidential Shredding Service

For more information please call
020 8256 1730

www.britannia-movers.co.uk

In today's security-conscious world, it is important to reduce the risk of identity theft and the unauthorised use of personal contact and address details, which are still often shared and stored in paper form. Once this information has served its purpose, it must be disposed of in a secure and effective manner to ensure your details remain protected.

Confidential shredding provides peace of mind that sensitive documents are destroyed responsibly and discreetly, preventing them from falling into the wrong hands and helping to safeguard against fraudulent use.

Britannia Movers has therefore developed a simple easy to use shredding service via its network of nationwide locations. Our simple 3 step process involves:

Step 1: Fill and seal sacks

Fill the destruction sack and seal with a zip tie provided.

Step 2: Set aside for collection

Put the filled destruction sacks to one side ready for collection on your moving day.

Step 3: Hand over for removal

Hand over the sacks to the removal team to taken for confidential destruction. Once the destruction has occurred, a certificate will be issued to confirm this.

All Britannia confidential shredding staff sign strict non-disclosure agreements, ensuring your documents are handled discreetly and securely throughout the collection and destruction process. Destruction takes place in a dedicated, secure facility, where paper is baled and sent to a local recycling mill. This approach allows customers to remain both security conscious and environmentally responsible.
